EMERGENCY CONTACT: Phone (64-9) 255-5609

8 am to 5 pm Mon to Fri

After Hours: National Poisons & Hazardous Chemical Information Centre: 0800-764-766 (0800-POISON)

HAZARD IDENTIFICATION:

Hazardous Substances and New Organisms Act (HSNO) 1996 & Classification Regulations 2001 for the product of this concentration:

6.3A Causes skin irritation.

8.3A Causes serious eye damage

Cleaning Products Subsidiary Hazards Group Standard:

HSR No 2530

COMPOSITION & INFORMATION ON INGREDIENTS compliant with EU Regulation No 907/2006:

Nonionic surfactants	5 – 15 %
Acid descalants (citric acid)	5 – 15 %
Solvent (ethanol)	< 5 %
Perfume	< 5 %
Thickener	< 5 %
Colouring	8 ppm
Water	> 50 %

FIRST AID MEASURES:

Contact with eyes:	Rinse eyes with running water holding back eyelids for 5 minutes. If irritation persists seek medical advice.
Contact with skin:	Wash affected area with copious volumes of water. If clothing is contaminated, remove and wash the affected skin area. If irritation or swelling occurs, seek medical advice.
After inhalation:	A non-volatile compound in normal use. But if subject to vapourisation remove the patient from exposure to a restful location and seek medical advice if symptoms persist. If clothing is contaminated, remove and wash before reuse.
After ingestion:	Do Not Induce Vomiting. Administer 2 glasses of water or milk and seek medical advice if discomfort persists.
Advice to Doctor:	Treat the patient for exposure to material with mild toxic effects. Have this SDS or a product label on hand.

FIRE FIGHTING MEASURES:

This product is neither flammable nor combustible.

Drums subject to the heat of a prolonged fire may explode or erupt scattering contents with possibility of enhancing combustion. Where possible remove drums and containers from the path of a fire, or cool with water spray.

Firefighters may use water spray, jet, fog, foam, CO₂, or dry chemical powder to extinguish a fire in the vicinity.

ACCIDENTAL RELEASE MEASURES:

Spills on floors will produce a slippery surface. Signage preventing foot traffic should be erected where appropriate.

Minor spills (less than 100 litres) should be contained from drainage, diluted with water, neutralised where appropriate, and removed with mops, or absorbed with Mineral Sponge, rags, paper, sand, or soil. It may be possible to drain small spills to town wastewater services where permitted by local authorities.

Large spills (drums and IBC's) should be contained from local drainage with any suitable bund or barrier. Clean up with absorbent material such as Mineral Sponge, paper, rags, sand or soil. Where a liquid suction cleaning machine is available, it should be used only after neutralising the spill product.

HANDLING AND STORAGE:

Store containers in sites where they can be kept cool and dry and away from heat sources. Liquid products in drums and carboys must have secure closures which fit.

Handle to prevent damage to containers. Should packaging be damaged, repack into clean and dry containers of the same type and mark the product name carefully on an easily seen location on the container.

After use, always replace lids and caps and return to safe storage as soon as possible.

There are no specific transport restraints for this material in secure containers.

EXPOSURE CONTROLS & PERSONAL PROTECTION:

Exposure controls: No data is available for Kemsol Green Neptune.
 Eye protection: Safety glasses.
 Protective clothing: Chemically impregnable gloves, protective work clothes (a coat, apron or overalls).
 Respiratory protection: Not required for the regular use of this product.
 Ventilation: Where spraying or vaporising is being carried out, ensure there is adequate ventilation provided in the work space.

PHYSICAL AND CHEMICAL PROPERTIES:

Appearance	Translucent green coloured liquid	
Odour	Characteristic breezy lavender	
pH	2.5 ± 0.5	
Flash Point	Not applicable	
Ignition Point	Not applicable	
Specific Gravity	1.044 ± 0.01	
Refractive Index	1.352 ± 0.005	12½ Bx
Viscosity	c. 2000 mPas	
Relative Foam	Med	
Solubility in water	Completely in all proportions	

STABILITY AND REACTIVITY:

Kemsol Green Neptune is considered stable under normal storage conditions.
 Avoid contamination with oxidising substances.
 Hazardous polymerisation will not occur.
 Combustion of this product will release oxides of carbon and nitrogen.

TOXICOLOGICAL INFORMATION:

No data is available for Kemsol Green Neptune

ECOLOGICAL INFORMATION:

No data is available for Kemsol Green Neptune.
 Surfactants used in Kemsol Green Neptune are classed Readily Biodegradable according to the European Union Detergents Regulations #907/2006.

DISPOSAL CONSIDERATIONS:

Minor spilled liquids (after neutralisation) may be disposed of through town wastewater systems where these are authorised for industrial use.
 Major spills, which have been collected by machine or on absorbants, should be disposed of by waste disposal experts in accordance with local regulations.
 Wash empty containers before recycling.

TRANSPORT INFORMATION:

NZ Land Transport Rule: Dangerous Goods Rule 2005

Classified as not dangerous for Land Transport in New Zealand

NZ REGULATORY INFORMATION:

Cleaning Products Subsidiary Hazards Group Standard:	HSR No: 2530.
Hazardous Substances Controls Regulations 2001 for Kemsol Green Neptune:	
Wear gloves and eye safety glasses handling Neptune	Keep unused product in secure containers to prevent mistaken use
Label or mark containers used to hold Neptune	

OTHER INFORMATION:

Formulation reference and version number: Version 1 R10 – 171.
 This SDS was prepared from data available on 7 August 2013.
 This SDS was printed on 12 August 2013.
 This SDS will be reviewed no later than 7 August 2018.
